### **DETAILED ACTION**

This office action is in response to the paper filed 7 July 2005.

The Double Patenting rejection stated in the paper mailed 7 February 2005 has been withdrawn.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-7 and 33-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eastman et al. (U.S. Patent 4,465,702), in view of Rose et al. (U.S. Patent 6,284,359), as stated in the paper mailed 7 February 2005.

Claims 37 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eastman and Rose, as applied to claims 1 and 33, respectively, above, further in view of Hansen et al. (U.S. Patent 2,464,081), as stated in the paper mailed 7 February 2005.

#### ***Response to Arguments***

Applicant's arguments filed 7 July 2005 have been fully considered but they are not persuasive.

Art Unit: 1732

Applicant contends that Eastman does not teach a soluble starch. This is not persuasive because Eastman clearly discusses the solubility of his starch at Column 7, lines 26-34. His starch does, in fact, meet the limitations of the instant claim.

Applicant contends that Eastman does not show an extruder. This is not persuasive because Eastman was not cited to show that limitation.

Applicant contends that Rose does not show the solubility of his materials. This is not persuasive because Rose was not cited to teach solubility, although he does teach the specific material claimed in Claim 1, lines 4-5, which is believed to meet applicant's own limitations of solubility.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
